Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or *"get-rich-quick"* concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

The Publishers of this Directory

GOVERNMENT

OF THE

STATE OF INDIANA

CAPITOL BUILDING, INDIANAPOLIS

THE STATE OFFICERS.

Governor—Samuel M. Ralston. Term expires January 13, 1917.
 Lieutenant-Governor—Wm. P. O'Neill. Term expires January 13, 1917.

Directory Libraries

- ☐ Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.
- ☐ City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.

Racine Tires

**"Stand the
Gaff"**

Racine Tires have an enviable reputation for standing "the gaff," because they meet every trouble in the road or highway and laughingly overcome it.

**The I. J. COOPER
RUBBER COMPANY**

219-221 West Vermont Street
INDIANAPOLIS - INDIANA

"Center Reserves"

**Extra Value
Ordinary Price**

It's the center of your tread which takes road-punishment, and Firestone "Center Reserves" provide for it by giving extra quantity of rubber, piled high in the middle, to fight the extra rub.

And Firestone rubber is right. All the tensile strength of pure, new sap, selected with science and skill and prepared with an eye to toughest service.

Firestone
NON-SKID TIRES

hold your car true on any road—safe against skid, spin or slide. You get all the mileage out which the Firestone organization of specialists build in.

Equip NOW. Your dealer has Firestones or can get them for you immediately

The Union Trust Company is organized under a special law which requires a guarantee of ample financial responsibility, and establishes a state supervision. It must be examined twice a year by the Auditor of State, and it may be examined at any time he pleases. The safeguards of law thus thrown about it assure correct management. It is authorized to execute all kinds of trusts; is a legal depository for court and trust funds.

LIST OF NAMES

Any Business—Any Locality
Accurate and Up-to-the-minute

WE publish over 400 Directories — City, County, State, National and Trade. We furnish real live up-to-date lists of all trades and professions.

¶ As directory publishers we frequently have available for lists the manuscript copy from which directories are being compiled, and thus you may secure information in advance of publication, a service that cannot be had elsewhere.

¶ We have no trade lists—our information is taken from the latest sources, and above all things, is accurate.

Directory Libraries

Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.

City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.

ST. MARY'S COLLEGE AND ACADEMY NOTRE DAME - - INDIANA

In these days of the "new woman"—and the nearly so—whatever the term "new woman" may mean—when criticism of institutions of learning for girls is more or less rampant—here is a little story about St. Mary's College for girls, where moral, physical and intellectual development moving along together, offer a definition.

Learning to run an automobile and how to care for its mechanism is as essential to a perfect mark in physical culture out there as moral sense and mental achievement are to credit marks in the other departments. Not particularly old-fashioned this—but a linking of the new to the old, which has been characteristic of St. Mary's from its foundation.

The story of the growth of St. Mary's from humble beginnings to the notable position which she holds today has all the vital human interest of a novel based on truth. It combines the force of fact with the appeal of romance. And now at the summit of success she stands for principles of education and womanhood to which one turns as to an ideal.

The cornerstone of the first new building on the present site, two miles north of South Bend, was laid in April, 1855, and this is the date from which St. Mary's of today computes her age. August saw the new home practically completed. The natural beauties of the surroundings had been enhanced by an artistic landscape design and the avenue had been planted with maples and sycamores.

Today the structures then so imposing are overshadowed by others more beautiful and pretentious and the simple courses of study have been elaborated until they rank with any academic or collegiate course in the country and in the realm of fine arts, St. Mary's has gained an enviable reputation. Her chemical, physical, botanical and domestic science and other laboratories are second to none and her libraries, special and general, contain thousands of volumes, among them many rare editions and valuable antiques.

Beside the academy, collegiate and music halls, modern and luxurious in their equipment, there have been added from time to time a students' infirmary, sisters' infirmary, a gymnasium and commencement hall, convent, laundry, new kitchen, garages and sundry other large but subordinate buildings until the group resembles a community of no mean proportions. Perhaps the loveliest of the group is the church begun in 1886 and completed in 1888. It is Romanesque in style, built as a monument to the Very Rev. Father Sorin, C. S. C., and according to plans suggested by him.

The handsome, tastefully furnished parlors speak of the refinement and love of the beautiful which must be every girl's heritage who has the good fortune to pass some years of her life at St. Mary's. Lovely as are the reception rooms into which the casual visitor or guest is ushered, yet more attractive and artistic is the little green parlor into which the more intimate friends are invited. The furniture is all of green wicker and the walls are finished in a corresponding tone, while the window draperies are of pastel shaded chintz. The private rooms for the girls are all attractive and the dormitories with the spotless beds and curtained dressing rooms are scarcely less so. Every precaution is taken to make conditions sanitary and the splendidly equipped bath rooms are all finished in marble.

As a part of the campaign for strong, healthy girls, much emphasis has been placed on the physical culture department, supervised by a student of Dr. Sargent's famous school. Besides the gymnasiums, "Lake Marian," an attractive artificial lake with a boathouse in connection, has in recent years been added to encourage sundry aquatic sports, and just now grounds are being prepared for golf and hockey.

There is never any work less applauded and less conspicuous—unless for its absence—than that of the cook, yet there is no laboratory at St. Mary's more interesting than the huge modern kitchen where the daily food for the whole institution is prepared.

Among the recently constructed buildings at St. Mary's are the Astronomical Observatory, completely equipped, and a green house—an object of real beauty. Not only will the plants, shrubs and flowers for the adornment of St. Mary's grounds be grown and cared for here, but it will be used as a laboratory for practical experiment for the botany classes.

St. Mary's covers almost 1,000 acres, a part of which is devoted to farming, a business which is profitably supervised by one of the sisters and which furnishes the school a portion of its food supplies.

APPLICATIONS:

European School of Music

FOUNDED 1892

GEORGE BAILHE, Director

FACULTY OF 14 INSTRUCTORS

Departments in Piano, Voice, Violin, Cello, Theory of Music, Band
Instrument Instruction, and German, French and Spanish Languages

THE SCHOOL ISSUES TEACHERS' CERTIFICATES AND DIPLOMAS

Twenty-Five Years of Supremacy

For nearly twenty-five years the European School of Music has been recognized as the leading institution of musical learning in Northern Indiana. The School was founded in 1892, and has steadily maintained the highest standard of endeavor in its special educational field. The course of study has been perfected from year to year, the Faculty strengthened, and today the School insures the best results from the beginning to the full development of artistic requirement.

We trust that those contemplating the study of Music and Languages will give this catalog a careful reading. Investigation will readily demonstrate the superiority of this institution. All requests for information will receive prompt attention.

173

Valparaiso University

Founded 1873

The University was founded with but one object in view, that of giving to everyone the opportunity of obtaining a thorough, practical education at an expense within his means.

That such an institution is a necessity may be judged by the fact that each year, since the beginning, the attendance has been greater than that of the previous year.

It maintains excellent equipment for doing the highest grade of work in the following twenty-one departments which it maintains:

Preparatory, High School, Primary Methods, Kindergarten Methods, Commerce, Phonography and Typewriting, Review for Teachers' Education, Arts and Sciences, Engineering, Architecture, Manual Training, Agriculture, Expression and Public Speaking, Music, Fine Art, Domestic Science, Pharmacy, Law, Medicine and Dentistry

The expenses are the lowest. Tuition, \$20 per quarter of twelve weeks, or \$65 per year of forty-eight weeks if paid in advance. Board with furnished room, \$29.60 to \$41 per quarter.

Catalog giving full information mailed free. Address

Directory Libraries

❑ Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.

❑ City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.

Polk's Medical Register and Directory

FIRST PUBLISHED IN 1886

Has been published at regular intervals ever since without variation in price or purpose. It has received the generous support of the profession at large and in return, its publishers have striven to give the profession a Directory in all that term implies, not usurping any functions belonging to the members of the profession, or the authorities in whom reliance is placed for the enforcement of existing laws. It was the pioneer, and in its scope and arrangement must have been wisely conceived, as evidenced by the closest imitation by other publications of a later date. It has been the standard work of its kind for years, and no effort will be spared to maintain the place earned for it in the esteem of the profession.

Directory Libraries

- Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.
- City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.

Any Business—Any Locality
Accurate and Up-to-the-minute

WE publish over 400 Directories — City, County, State, National and Trade. We furnish real live up-to-date lists of all trades and professions.

¶ As directory publishers we frequently have available for lists the manuscript copy from which directories are being compiled, and thus you may secure information in advance of publication, a service that cannot be had elsewhere.

¶ We have no trade lists—our information is taken from the latest sources, and above all things, is accurate.

The Vincennes Commercial

(Member Audit Bureau of Circulations)

The value of the Commercial for advertising is that it fully covers Vincennes and vicinity. It stands on its own merits and is not forced on any one or given away. Its patrons buy it voluntarily for the pleasure and profit it gives them, and their neighbors borrow it for the same reason. Fully 16,000 people in Vincennes and vicinity read every issue of the Daily Commercial. The management leaves no effort untried to give patrons satisfaction and profit. PUBLISHED EVERY MORNING EXCEPT MONDAY.

C. W. ADAMS, Manager

MANUFACTURERS AND JOBBERS OF EVERTHING OPTICAL

Prompt Service

The advertisers in this department have
been tried and not found wanting
"Efficiency" is their accepted motto

Osteopathy

R. L. POLK & CO'S INDIANA GAZETTEER.

293

The Efficient Human Machine

THE human body is a highly complex, vitalized machine. It is perfect in design, infinite in construction, superb in efficiency. Its automatic steering gear and dust-proof bearings are beyond imitation. All other machines are but modifications of its principles and processes.

It is not only the highest type of mechanism, but it is subject to psychic and vital influences. It is self-operating, self-cleansing, self-oiling. It regulates its gear to meet stresses, strains and accidents. It recharges its batteries in self-defense against changes of weather, over-indulgences, infection and poison which obstruct requisite flow of subtle vital forces to propel the wheels of life.

Cared-for machines outlast neglected ones. Carelessness aided by ignorance in running your body machine means disaster. Most people run watches; many run automobiles; everybody runs a human machine. It was given you to run as efficiently as you can and as long as you can. It is your most valuable property. To run it smoothly and without pain, its minutest parts must be kept adjusted and regulated; supply it with proper fuel, air, water; never abuse it, or debauch it with poison; cherish it and keep it undefiled.

Wheels won't run without energy and energy won't generate if the boiler is scaly, furnace clinkered or pipes clogged. A slipped cog, a sprung shaft, a bent piston—the machine is dead. As with auto and watch, so with the human machine. Its boilers of existence won't generate enough vital power to turn the wheels if its parts are out of gear. Slipped vertebrae, sprung ribs, contracted muscles, deranged glands, impinged nerves shut off vital impulses—man is disabled, dis-eased.

What shall the remedy be? Can you prudently weigh the merits of applied mechanics to repair the human machine and then deny yourself the services of an efficient osteopath, trained to adjust and regulate the human mechanism that it may be enabled to generate vital powers adequate to maintain health, or would you pour vile stuff into your watch, auto or body machine to adjust their parts and release vital energy required to make the wheels go round? Which appeals to your reason?

The art of adjusting the intricate parts of the human mechanism for the cure of its ills should be entrusted only to a qualified osteopath. To subject the temple of your soul to the crude, bungling work of uneducated, unlicensed imitators is a tragedy, an insult to God's shrine.

The competent osteopath takes the human machine and reads each defect—each weakness clear—and strikes his finger on the place, and says, "Thou ailst here—and here."

The rational scientific methods that characterize the

SPAUNHURST INSTITUTE OF OSTEOPATHY

appeal to the cultured and thoughtful who so revere their bodies that they submit them only to the care and regulation of a licensed osteopathic physician, which spares them exposure, danger and pain; saves them dollars and assures them added health and efficiency. Our privilege and joy is to share these blessings with you. Literature for the asking that makes plain how to achieve these results.

The Spaunhurst Institute

Established 1900, 527-30 State Life Building

For Scientific Health Building—Pioneer Osteopathic Offices of Indianapolis. Its staff are graduates of original School of Osteopathy, Kirksville, Missouri. Phones: Main 643; New 652; Res., North 463. Apartment "C" The Kenilworth

Directory Libraries

Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.

City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.

LIST OF NAMES

Any Business—Any Locality
Accurate and Up-to-the-minute

WE publish over 400 Directories — City, County, State, National and Trade. We furnish real live up-to-date lists of all trades and professions.

¶ As directory publishers we frequently have available for lists the manuscript copy from which directories are being compiled, and thus you may secure information in advance of publication, a service that cannot be had elsewhere.

¶ We have no trade lists—our information is taken from the latest sources, and above all things, is accurate.

Screen Manufacturers

No flies in your house with THE PHENIX Entire Window screen. Easily hung or removed from inside by any person. No expense.

The "Windustite" American

This strip is made in two channels, the inner one attached to the sash with rustless nails, the outer one attached to the frame with countersunk rustless screws.

It protects the sash against wearing, as the two flat surfaces of metal travel, one within the other, causing no friction on the wood.

THE PHENIX HANGER

Solves the problem how to hang Entire Window Screens, Awnings and Storm Windows

Stenotype Machines

274

R. L. POLK & CO'S INDIANA GAZETTEER.

Better Letters

Stenotypists write on the Stenotype words—often whole phrases at a single stroke—SPEED. Stenotype notes are printed in plain Roman type—ACCURACY. ANY STENOGRAPHIC CAN READ AND TRANSCRIBE THESE NOTES. Faster dictation, better letters, quicker transcriptions, a more even distribution of work—all this if you employ Stenotypists—without a cent for equipment—Stenotypists own the machines they operate.

Stenotypists may be secured from 350 Leading Commercial schools giving instruction in Stenotypy. Ask us for the name of your nearest school.

Typewriters

WHO CAN USE THIS MACHINE?

Here is a special typewriter that will appeal to shrewd buyers. You may choose this Underwood machine or any other make you prefer, bar none—with complete equipment and latest improvements—and own it without red tape, on the easiest plan you ever heard of, at one-half or one-third manufacturers' prices. Write for particulars and see.

This is the time to act—our entire stock is now offered at less than list price. Never before—never again—such bargains. "A few cents per day—you'll never miss it—will satisfy us. No other house so liberal—so reliable—so determined to please. Thousands of delighted customers."

But don't confuse OUR proposition with others—don't be fooled. From us you can get factory-rebuilt typewriters by the genuine "Young Process." Each machine relentlessly tested when completed, and guaranteed by our iron-bound guarantee that's all in your favor. You can't go wrong. No pay it today—now.

not as good as new—if it doesn't look and wear just like new—if not clearly the best value EVER PUT UP TO YOU. You take no risk—you can't lose.

Don't waste money. Write for our war prices, special inducements, and book, "The Truth About Typewriters." Don't even think of taking a step until you read this book of inside secrets and see how much better it is to deal with this reliable, old time house. Send no money—just your name and address today—now.

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or *"get-rich-quick"* concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

The Publishers of this Directory

R. L. POLK & CO.'S INDIANA GAZETTEER

—AND—

BUSINESS DIRECTORY

—FOR—

1916--1917

In the following section of the work the cities, villages and postoffices of Indiana are arranged in alphabetical order, and a description is given of each place, with an alphabetical list of all persons doing business therein or receiving mail at that postoffice. Great care has been taken to insure accuracy and completeness.

AMPLE

A small settlement in Wabash township, Jay county, 10 miles northeast of Portland, the county seat. Rural free delivery from Fort Recovery, O., which is the shipping point.

ANDERSON

Population, 30,000. Incorporated, 1839. The city is located on White river, a water power stream, in Anderson township, Madison county, 26 miles northeast of Indianapolis, and on the New York Central, Pennsylvania, Central Indiana, and Union Traction of Ind. Rys., and has a belt railway for quick freight transfers; headquarters, general offices and shops of the Union Traction Co., comprising 475 miles of electric road are located here. Has 3 banks and 3 trust companies doing banking business, and a building and loan association; 2 newspapers, Bulletin (evening), Herald (morning, except Monday), and a number of weekly and quarterly church newspapers and periodicals are published; has 13 public school buildings, including the manual training high school. The schools have over 6,500 pupils. There are 6 parochial schools and two business colleges; also Methodist, Wesleyan Methodist, Presbyterian, Baptist, Universalist, Catholic, Episcopal, Christian Alliance, United Brethren, Friends and Christian churches.

Anderson has 115 manufacturing plants; the manufactured products embrace electric starting and ignition devices, pumps, silicate of soda, brick and tile, floor tile, ordnance, paper boxes and cartons, regalias, carriages and wagons, automobiles, beer, tables, engines, brick making machinery, boilers, handles, cheese cutters, scales, safes and vaults, art glass, churns, auto tops, auto parts, cement products, fence, roofing felts, sheet metal, auto tires, fence posts, gas regulators, auto trailers, ice cream, canned products, molasses, stock foods, patterns, vacuum cleaners, flour and feed, ice, bed and seat springs, fertilizers, pork and beef (packers), wire nails, machine knives, files, valves, auto wheels, silos, shovels, tools and aeroplanes.

The wholesale and jobbing distribution of the above manufactured products embrace the following lines: groceries, fruits, flour, confectionery, meats, paper, cigars and tobaccos, lumber, jewelry, flowers, beer and creamery products.

The water works and electric light plants are owned and operated by the city; these plants have by their earnings, paid off the debt of the city. The two plants have a value of \$2,500,000.

Anderson has 38 miles of paved streets. The sewage system is of the best. Principal shipments are manufactured products, grain and live stock.

The Anderson Chamber of Commerce has 1,000 members, all boosters for the "Puncture Proof City—Anderson."

AURORA

The largest city in Dearborn county, with 5,000 inhabitants, is located on the Ohio river in the township of Center. It is incorporated and is 4 miles west of Lawrenceburg, the county seat, and 26 miles west of Cincinnati on the B. & O. S. W., C. C. & St. L. and C. L. & A. (electric) railroads. Situated in the heart of a splendid farming section, it is the acknowledged trade center for the country patronage of two counties. There are two flourishing banks, two live newspapers and six churches of the leading religious denominations. The schools are unexcelled by those of any town of its size in the state. There are a large number of important manufacturing establishments the chief products of which are buggies, chairs, wheels, castings, machinery, tools, caskets, furniture, monuments, cooperage, lumber, flour, etc. The principal shipments are hay, grain and tobacco. The city boasts unexcelled water and sewage systems and electric lighting and gas plants; has miles of concrete sidewalks and all the principal streets are paved with brick. Exp., Wells, Fargo & Co. Tel., W. U. Edward Maloney, postmaster.

BATESVILLE

Situated in the northwest corner of Ripley county, the largest city in the county, with a population of over 2,300 is noted for its thrifty and thriving business enterprises, and solidity of its institutions. Located 20 miles north of Versailles, the county seat, 48 miles west of Cincinnati and 62 miles east of Indianapolis, on the main line of the C. C. C. & St. L. Ry running eight outgoing trains daily.

Batesville has five large furniture factories, whose products are sold not only in all states of the Union, but in foreign countries as well; a modern casket and casket hardware factory, baby shoe factory, ladies' garment factory, saw and planing mills, grist mill, machine shops, fine electric power plant, improved water works system, more improved streets and cement walks than any city of its size, commissioned high schools, six churches, three dairies, two newspapers, Herald and Tribune, 20 mercantile establishments handling the leading, high class lines of merchandise, two flourishing banks, two prosperous savings and loan associations, three hotels, excellent telephone system connecting with the Bell consolidated lines, two auto garages, brick and tile yard, mineral water works, monument works. A larger

per cent. of laborers own their own homes than in any city of its size in the state. A healthy climate, pure water and fine farming section offer inducement to those seeking homes or business locations.

Exp., Am. Tel., W. U. Nickola's Volz, postmaster.

Hall Spoke Co

BRAZIL

The county seat of Clay county. Has a population of 12,780. It is located in the center of the block coal field of Indiana, the largest in the United States. It is the center of a splendid dairy and stock raising country. Four railroads, C. & E. I., C. I. & E. and Vandalia Railroads, and T. H., I. & E. Traction Co. enter the city, giving outlet to the principal markets—180 miles west to St. Louis, 180 miles north to Chicago and 57 miles east to Indianapolis.

There are 3 banks, 2 trust companies, 2 building and loan associations, 2 daily and 2 weekly newspapers, high and grammar schools and 15 ward schools. A new high school is being built at a cost of \$75,000, affording educational facilities equal to any locality in the state. The city owns the water works. The electric light and gas plants are of modern type. Among the many industries of the city are 11 clay plants, a piano factory, 4 machine shops, 3 foundries, a lathe factory, a boiler works, 2 planing mills, a metal stamping factory, a flour mill, a carriage and school-wagon factory, a cold storage plant, a creamery and 2 ice cream factories. There are 9 coal companies operating mines, and in addition to the block field there are large deposits of bituminous coal, excellent and economical for factory purposes. A canning factory is located here which packs 300,000 bushels of tomatoes annually. The clay and shale products are unexcelled in the world; they are building, face and paving brick, sewer pipe, tile, flue lining and silo blocks. The industries indicated demonstrate the industrial importance of the city. Exp., Adams. Tel., W. U. E. C. Schuetz, postmaster. EAST CHICAGO.

Population, 20,000. A city, including
within its corporate limits Indiana
Harbor, is situated on the shore of
Lake Michigan, in North township,
Lake county, 20 miles northwest from
Crown Point, the county seat and 19
miles from the central business dis-
trict of Chicago. The main lines of
N. Y. C., Penna., B. & O., Wabash, P.
M., and C. L. S. & S. B. R. Rs. pass
through the city. The city is within
the Chicago switching district and en-
joys Chicago rates, the advantage of
which is readily appreciated by ship-
pers. There are 3 banks, 3 newspa-
pers, Press, Globe and Times, and
churches of the leading religious de-
nominations. Public improvements
and conveniences, public schools, po-
lice and fire protection and the water,
light, sewage and paving systems have
kept pace with the industrial growth
of the city which is progressive in
every respect. The principal indus-
tries are iron, steel and chemical man-
ufacture. Exp., W. F. & Co. Tel., W.

ELON.

Discontinued postoffice in Orange county. Mail to Birdseye.

ELWOOD.

Population, 15,000. Incorporated as a city, 1891. Located in Pipe Creek township, Madison county. Is 15 miles from Anderson, the county seat, and 45 from Indianapolis. Two railroads, the Pennsylvania Lines and Lake Erie & Western and the Union Traction Co. of Indiana, furnish first class shipping and transportation facilities. Has 4 banks, 12 miles of paved streets, 40 miles of cement and brick sidewalks, sewerage system and several hundred cluster lights radiating for blocks in every direction from the business section. The country around Elwood is highly developed and farm property is in great demand. The soil being especially adapted for the growing of the most valuable of agriculture products.

The principal products manufactured are brooms, glass, boxes, kitchen cabinets, tin plate, boilers, lawn mowers, canvass gloves, cigars, shovels, and tools, castings, clay pots, canned goods and creamery products. Has two daily and one weekly newspaper.

Elwood has an up to date school system, the high school building costing \$75,000, a Carnegie free library containing 25,000 volumes. The churches are the Methodist Episcopal, Methodist Protestant, Baptist, Presbyterian, Christian, United Brethren, Catholic, Episcopal, Wesleyan Methodist, German Lutheran, Holiness, Christian and Congregational. Telephone connection. Tel., W. U. Exp., W. F., Amer. and Adams. Albert Carpenter, postmaster. Abbott Wm L, garage 224 n 16th, feed 1508 n E

Ev. Sub. & Newb., the Ill. Central, the L. & N., the L. H. & St. L. and the Southern. The expeditious transportation of freight from Evansville is guaranteed, there being 150 package cars forwarded daily by the steam roads. The 6 steamboat lines on the Ohio river afford prompt transportation of freight via that medium, as do the 6 traction lines to nearby places.

Evansville has an area of 10 1/4 square miles; municipal water works (new Holly improved system and new filtration plant); a tax rate of \$3; 275 miles of sidewalk; 60 miles of improved street; 33 miles of street paving; 60 miles of sewers; 125 miles of water mains; 250 acres of parks; 75 churches; 12 hospitals, homes and asylums; 28 public school buildings employing 325 teachers and having an enrollment of 12,000 pupils; 16 private and parochial schools with 3,000 pupils; 4 public libraries; metropolitan fire and police departments; 5 daily and 11 weekly newspapers; a \$750,000 county court house; a \$250,000 custom house and postoffice; a municipal athletic and recreation field and stadium; 33 miles of street railway; 70 passenger trains entering and leaving the city daily; an estimated value of real estate and taxable in city, \$44,117,870; county, \$52,740,740.

Evansville has 12 banks and trust companies with total resources of \$28,500,000. Total bank deposits, \$22,542,846. The savings deposits total \$10,000,000. Bank clearings for 1915 were \$72,433,725.71. For 1914, they were \$69,811,696.

Building permits for 1915 numbered 1,335, with a total value of \$2,047,160. In 1915 a number of old established firms erected large additions and in some instances new buildings. Building records show that \$140,000 were expended in new factory buildings and \$45,000 in additions.

The principal industries of Evansville include: Gas engines, furniture, cigars, lumber, brooms, flour, plows, stoves, steam shovels, pottery, beer, vehicles, edge tools, store fronts, glass bottles, locomotive headlights. Evansville has the largest queensware and crockery house in the state, the largest iron store front factory in the country, the largest wholesale dry goods and notion house in Indiana, the largest brewery but one south of Milwaukee, the second largest edge tool factory in the United States, one of the largest gas engine factories and the largest factories in the world as follows: furniture, exclusive buggy, closet combination, steam shovel, independent cigar and broom. Evansville is the largest exclusive winter wheat market in the world. Five mills produce 6,500 barrels of flour daily. It is second in rank in the production of furniture in the United States, second in rank in the production of buggies and second largest hardwood lumber manufacturing center in the world.

As an industrial center Evansville stands pre-eminent in the middle west

with its low freight rates, in and out-bound, exceptional transportation facilities by rail and water, healthful climate, close proximity to the immense timber tracts and pig iron furnaces of the south and accessibility to the great markets of the United States. It is the world's cheapest soft coal market and the metropolis of southwestern Indiana, western Kentucky and southern Illinois, having within its trade territory over 1,000,000 people.

The nearest jobbing center to Evansville is 122 miles distant, whereby the wholesale merchant is given a wide section in which to sell his goods and successfully compete with the larger cities in the Central West.

Write the Evansville Chamber of Commerce for any desired information concerning the city. Exp., Adams, Am., Southern and W. F. & Co. Tel., Postal and W. U. John J. Nolan, postmaster.

FORT WAYNE.

Population, 83,000. The judicial seat of Allen county, is located at that point where the St. Marys and the St. Josephs unite to form the Maumee river, which flows in Lake Erie at Toledo. Within its corporate limits it has nine miles of rivers, five of the St. Marys, two of the St. Josephs and two of the Maumee. All of these river banks within the city are to be acquired by the city and are to be parked and boulevarded.

Fort Wayne has four east and west trunk line railways, the P. Et. W. & C. (Penna. Lines), the Wabash, N. Y. C. & St. L. (Nickel Plate), and the New York Central Lines. It has 2 north and south trunk lines, the G. R. & I. and the L. E. & W. It is the western terminus of the C. H. & D. Ry. It has interurban railways, which have direct connection with the great interurban systems of Ohio and Indiana.

Fort Wayne is a city of municipal pride and aggressiveness. In no city in the United States has the ideal in municipal progress or organization been more nearly attained and the city enjoys an excellent social organization, commanding an attractive architectural features, a fine system of public improvements, schools, churches and every advantage that can come from collaborated effort to enhance the public welfare or make the individual life worth the living. In matters of public conveniences the city is the peer of any of its size. The organization of the municipal government covers all of the necessary departments for the protection of life and property, the supplying of public needs in the way of streets and thoroughfares, the prevention and extinguishing of fires, the administration of public justice and all of the features for which city government is organized and operated.

Fort Wayne has the best distributed system of parks of any city in the state, owns its own water works, with an ample supply of pure, deep rock well water, and a valuation of over \$2,000,000, the rates being the lowest in the state; has its own electric light plant for both city and commercial purposes and is one of the best lighted cities in the country. All of its business section being illuminated with five-light ornamental lamp posts, placed 75 feet apart on both sides of the street.

There is nothing of greater importance to any city than the possession of adequate facilities for the entertainment of permanent guests and transient visitors in a thoroughly organized, efficient and high-class man-

ner. Fort Wayne is fortunate in this respect, its hotels being widely famed and noted for their hospitable arrangements and their excellent fare and service.

The city is especially well provided with the facilities of a financial character that are required by its large volume of business, and it has a number of banks of old established reputation, the financial standing of the city being unsurpassed as to stability. There are 4 national and 4 private banks and 4 trust companies doing a banking business. Their varied operations cover a wide scope and meet every need in respect of banking and financial conveniences. In the making of loans and discounts the banks are conservative in the sense of safety, but they have been wisely liberal in their dealings with the local industries and have very much aided in promoting the noteworthy manufacturing and commercial progress of the city.

Fort Wayne has always been distinguished by its devotion to the cause of education in all its departments and particularly to the development and sustaining of a public school system upon the highest plane of modern progress and today presents as fine an example of what an enlightened educational policy can do to provide for the teaching and training of children from infancy to manhood and womanhood as can be found anywhere.

Fort Wayne has over fifty churches, ably-edited and progressive daily and weekly newspapers, public library, 4 opera houses, 3 large public hospitals, 14 photoplay houses, the finest public market house in the state, the handsomest Scottish Rite cathedral in the world, a country club, handsome Masonic temple, the finest county court house west of the Alleghenies and a live Commercial Club. It has no slum district. It is a city of homes, the proportion of home owners to its population being greater than in any city of its class in the United States. Fort Wayne is also a home-buying city. There is no line of trade that it not to be found here and offer just as much as anywhere else. Fort Wayne merchants are progressive in keeping up in the front rank all that is new, and in maintaining metropolitan stores.

With unrivaled facilities for commercial and manufacturing enterprises, a splendid location, both in regard to climatic conditions and the possibilities of greater development, and all the attributes of a modern metropolis Fort Wayne occupies a position of prominence. In the past decade the progress of Fort Wayne has been marked. New enterprises have sprung up and the city is now experiencing a genuine and lasting prosperity. Today the city is the center of a thriving set of manufacturing institutions, including a number of the largest plants in the world in their line. Fort Wayne is one of the best fields for legitimate enterprises that can be found anywhere, and its citizens will help along

FRANKLIN

Population, 4,500. The county seat of Johnson county, on the C., C., C. & St. L. and Penna railways and the I. C. & S. traction railroad, 20 miles south of Indianapolis. Has 4 banks, two weekly newspapers, The Franklin Republican and Franklin Democrat, and two dailies, The Evening Star and The Daily Democrat are published. The Franklin College, a Baptist institute, is located here. Two graded schools and Presbyterian, Christian and Baptist churches. There is a large paint factory here, also galvanized wire and furniture are manufactured. The principal streets are paved and the town is lighted electrically, also having a good sewage system and water works. This is considered the corn growing center of the state. The principal shipments are live stock and

grain. Tel., W. U. Exp., Adams and Am. A. B. Weyl, postmaster.

GOSHEN

Population, 10,000. An incorporated city located on the N. Y. C. and C. C. & St. L. Rys., and the C. S. B. & N. and W. I. Rys. (electric), giving splendid transportation facilities in every direction. Goshen is the county seat of Elkhart county and in Elkhart twp. Is 12 miles southeast of Elkhart and 148 north of Indianapolis. Goshen is surrounded by a splendid farm country and is also an important manufacturing center. It has all improvements of a modern city. Substantial public buildings and business blocks and a city of beautiful homes. It is the seat Goshen College, a Mennonite institution, having large substantial buildings and an enrollment of about 200 students; has city hospital, public library, good schools, churches of all leading denominations, 4 banks and 2 daily and weekly newspapers, the News-Times and the Democrat. Manufactures flour, furniture, novelties, underwear, churns and ladders, mechanical, rubber goods, hydraulic presses and many other lines of importance. Ships grain, live stock, lumber and general farm products. Exp., Am. and W. F. & Co. Tel., Postal and W. U. Telephone connections. Joseph A. Beane, postmaster.

<p>Indiana Union Traction companies afford excellent shipping facilities. It has 3 banks. Two newspapers, The Daily Times Gazette and The News, are published. The public schools of this city are the finest in the state for a city of this size. New additions to the high school were recently made costing in the neighborhood of \$70,000, including a fine gymnasium and swimming pool and an auditorium. In addition to the high school, there are four fine ward schools. Has Catholic, Episcopal, Presbyterian, Methodist, Christian, United Brethren, Dunkard and Apostolic churches. The principal industries of the city are paper and glass. There is a flour mill here and two elevators. The water works plant is municipally owned, and an electric light and gas plant is operated. The city has many miles of fine brick paved streets and is excellently drained, \$40,000 being spent this year in dredging Lick Creek, which affords the outlet for sewage. Tel., W. U. Exp., Adams, Am. and Wells, Fargo & Co., E. E. Cox, postmaster.</p>

HUNTINGTON.

Population, 15,000. In Huntington township, Huntington county, of which it is the judicial seat, incorporated as a village in 1848 and as a city in 1873. It is on the Little River (a branch of the Wabash River), a water power stream, and on the Wabash, Erie and C. B. & C. Rys. and Fort Wayne and Northern Indiana Traction lines (electric). The shops and terminals of the Chicago & Erie are located here, employing from 600 to 800 men. Has five banks with a total of \$3,000,000 of deposits.

There are two daily newspapers, The

Herald and The Press, The Farmer's Guide (weekly), and a large number of church and religious papers published weekly, monthly and quarterly. The later are under the direction of the United Brethren Publishing House. The school system is recognized as one of the best in the state, and there are several denominational schools and a business college. There are Baptist, Episcopal, Catholic, Christian, United Brethren, Presbyterian, Methodist, Evangelical Lutheran, Wesleyan Methodist and Church of God churches.

The industries embrace rubber specialties, plumbers rubber goods, furnace and coal shutes, clocks, cedar chests, pianos, lime, beer, crushed stone, shoes, gloves and mittens, needles, hoisting cranes, brick and tile, cement blocks cigars, playing cards, novelties and toys.

Huntington is located in a rich and highly developed agricultural country, especially adapted for the growing of the most valuable farm products. The city has more than 400 electroliter lighting posts which afford splendidly lighted streets. Has about 25 miles of paved streets, a bountiful supply of artesian water, furnished by municipal plant. Has a fine city hall, a beautiful court house, a Carnegie public library and many up-to-date office and business buildings and beautiful and comfortable homes very largely owned by its residents. Information regarding Huntington may be secured by addressing the secretary of the Huntington Commercial Association.

Principal shipments, manufactured articles, grain and live stock. Exp., Adams and W. F. & Co. Tel., W. U. Louis G. Trixler, postmaster.

INDIANAPOLIS

Population, 291,940. The capital of Indiana and the county seat of Marion county, is located on the left fork of the White river, almost immediately in the center of the state, 195 miles from Chicago, 240 from St. Louis and 825 from New York. It has 17 steam railroads, connecting directly with all the great cities of the Central West, and also with Washington, Philadelphia, New York and Boston. It has 6 electric interurban systems made up of 13 lines, which in 1915 carried 6,629,642 passengers to and from the city, an average of 18,163 daily, 689 passenger cars being handled each day in the largest and most pretentious interurban station in the United States. Freight cars to the number of 25,511 were also handled by this station. It has 3 direct steam roads to the coal

fields of Indiana and 2 steam roads direct to the stone quarries of southern Indiana. It is in population, transportation facilities and volume of business transacted the largest inland city not on a navigable stream in the United States. It has an area of 37.97 square miles, an assessed valuation of \$244,217,280, a bonded debt of only \$3,717,390, a tax rate of \$2.35 on each \$100; 343 miles of sewers; 26 parks, covering 3,000 acres; 406 miles of water mains, using 23,500,000 gallons every day. The water supply is abundant and pure. No other city surpasses Indianapolis in the excellence of its water for both domestic and commercial use.

It has 250 miles of permanently improved streets; has 170 miles of city electric car lines, operating over double tracks, with four-cent fare and universal transfers; has artificial gas at 55 cents a thousand feet, the scale decreasing to 40 cents for the large consumer. The cheap fuel of Indianapolis is world famous. There is an unrivaled street lighting system and 59,360 telephones, with long distance connections with city, farm and town throughout the state.

Has one of the most beautiful and best appointed postoffice buildings in the United States, erected at a cost of \$2,000,000, has the largest and most inspiring Soldiers and Sailors' Monument in the world; a \$250,000 Y. M. C. A. building; a \$100,000 colored Y. M. C. A. building; a \$140,000 Y. W. C. A. building; 25 modern office buildings, six to sixteen stories high, and more under construction.

The total deposits of its six national banks in 1915 amounted to more than \$45,000,000. The total resources of these concerns are over \$63,000,000.

Indianapolis has 200 wholesale and jobbing houses, representing all lines of trade with a market extending well over the central west, and has 1,200 factories employing 33,000 help. It is the second city in America in the output of automobiles. It has the greatest motor speedway in the world and one of the best mile tracks for the training and racing of trotting and pacing horses in America.

It is the seat of the following state institutions. Indiana State Fair, the Indiana School for the Blind, the Indiana School for the Deaf, the School of Medicine of Indiana University, the Indiana Girls' School, the Indiana Woman's Prison and the Central Hospital.

The postoffice receipts for 1915 were \$1,569,142.43; imports, \$750,000; building permits amounted to over \$7,000,000; real estate transfers totaled over \$22,000,000; at the stockyards more than \$60,000,000 worth of live stock was handled, and there were 5,417 births and 4,131 deaths.

Indianapolis has 70 public and 3 high school buildings, valued at \$5,529,317, the John Herron Art Institute, 63 hotels, 79 newspapers and periodicals, a public library with numerous

branches, the reference library of the Indiana State House, schools of music, art, for commercial training, medicine, dentistry, etc., pretentious club houses, gymnasiums and theaters, lodges of the leading secret and benevolent orders, miscellaneous associations and societies, and one of the largest United States army posts in the country.

It is the greatest center for the manufacture of quartered oak veneer in the country, is the largest producer of hominy in America, and has in the Normal School of the North American Gymnastic Union one of the great training schools for physical directors. The city has exceptional facilities for national conventions and entertains several hundred thousand visitors every year. It is pre-eminently an industrial city because of its geographical location in relation to the general market, because of its unsurpassed shipping facilities, abundance of labor and the nearness of the fuel supply. It has several very large industrial buildings for small manufacturing concerns, which supply space, power and other facilities at reasonable cost. Tel., Postal and W. U. Exp., Adams, Am., Natl., Southern, Traction and W. F. & Co. Robert E. Springsteen, postmaster.
